## Houghton Mifflin Professional Development Resource for Journeys and Collections (HMH eLearning)

HMH® eLearning offers comprehensive, on-demand Professional Development training for teachers who are preparing to implement new ELA classroom resources.

These interactive online courses are designed by curriculum specialists with in-depth product knowledge in collaboration with classroom teachers to provide engaging, authentic learning experiences. Courses support self-paced, independent study with a menu for self-navigation, integrated classroom video, and frequent knowledge checks, and offer reporting on course completion details and status. Each participant will be provided a certificate of completion. Please see your principal or technology teacher for login information.
