

# Mrs. Russell's 3<sup>rd</sup> Grade Remote Learning Plan

Dear Parents & Students,

As we begin our 4<sup>th</sup> week of remote learning, please check Power School to see if there are any activities your child is missing. I do make mistakes so please let me know if I have missed something. Assignments turned in are saved in our programs and on Teams. I do not delete emails so I can easily check. There are several different outlets offered for turning things in so I could have missed something, or you may have turned something in since I've last checked. As far as assignments go, feedback is in a few different places for different people, depending on how you are turning things in. The easiest place for me to leave feedback, and for you to see my feedback, is on the actual assignments in Teams. When I return the assignment, you can pull up your "completed" assignments in Teams. These are located below the current assignments that you have not turned in. You must click on "completed" to see them. Click on the assignment title to view the feedback. Open the assignment to see any corrections. If I've received your assignment through email or OneNote, I will still "return" your assignment to you through Assignments in Teams. I hope that all makes sense. Students are using many different methods, so that is the best explanation I can give to all. If you have individual questions, please ask!

Students, please remember that assignments checked for completion are marked with \*\*. My suggestion would be to watch instructional videos and read instructional material, then complete \*\* assignments first. Especially if you are having a difficult time completing the work. Assignments **not** marked with \*\* would be of next importance. THEN the OPTIONAL assignments would be of least. Any questions, please ask!

\*\*Please remember that any assignments labeled "Optional" are optional. They are highlighted in pink on the learning plan as well. Some students like additional practice, other families do not have the time for it. I completely understand both.

I realized over the weekend that you were not able to see my feedback on your journals because we are not "turning them in." I moved those comments from last week, and new comments from this week over to your journal using the "comment" feature. When you open your journal, in the upper right corner, you will see the comment box, showing you have new comments. These comments will be attached to the slides. It should make sense once you open it and see them. If you have yet to work on your journal assignments, please do so.

Parents, please check your email if you haven't seen the video conferencing permission information yet. I will send an email out this week with more information to those I've received permission from. I'm looking forward to seeing the kids soon!!!! I miss them!

I explained this in the learning plan, but I sent a chapter book, The Chocolate Touch, through Epic. THIS IS NOT A REQUIRED READING. We were going to begin the book in class, and it's a book my students always enjoy. I thought they may like to read it.

As always, thank you so much for all you are doing at home. I know the parent side of this is not easy! I appreciate your continued flexibility and support. You are all doing an amazing job. Hang in there. Stay safe and healthy and have a wonderful week!

Yours in education,

Mrs. Russell
